

INDEX—VOLUME 5

- ABO blood groups, 6, 230, 252, 377, 398
 finger prints and, 398
 phenotype system, 230
 racial distribution, 6, 252, 377
 Eskimos, 252
 Indians, Alaska, 252
 Indians, Arizona, 384
 Negroes, 6
 Whites, Alaska, 252
 achondroplasia, 373
 admixture, population, 377
 age, effect on hair pigment concentration, 293
 agglutinin, rare human, 350
 Alaska, blood group distributions, 252
 allelic frequencies, 267, 386
 ABO blood group, 384
 Clinodactyly, 267
 MN blood type, 382
 Rh blood type, 382
 allelic systems, 193
 ALLEN, GORDON, 322
 American Negro, 1, 154
 annual meeting, preliminary program, 283
 anomalies of extremities, 70, 356
 feet, 356
 hands, 70, 356
 bibliography of human genetics, 100, 186, 284, 405
 birth rank, 176
 births, seasonal variation in sex ratio, 21
 BLACKER, C. P., 96
 blood factor Ca, 350
 blood groups, (look under group desired)
 fingerprints and, 389
 geographic distribution of, 398
 racial distribution of, 6, 252, 377, 398
 blood types,
 MN, (see MN blood types)
 Rh, (see Rh blood types)
 BRANCATO, GEORGE J., 350
 Ca blood factor, 350
 CATTELL, RAYMOND B., 76
 Chi-square, estimation of inbreeding coefficient, 110
 chondrodystrophy, mutation rate of, 73, 373
 cleft palate, 176
 clinodactyly, 257
 concordance, TB in twins, 322
 COTTERMAN, C. W., 193
 cutaneous lesions, 139
 cytochemistry, 400
 DAHLBERG, ALBERT A., 377
 DANFORTH, C. H., 96, 402
 DANIELLI, J. F., 400
 DAVIS, RALPH WALDO, 356
 degree of determination, hair pigment concentration, 309
 DEMARINIS, F., 257
 dermatoglyphics, 389
 digits, 70, 257, 356, 389
 arches on, 389
 defects of, 70, 257, 356
 whorls on, 389
 dizygous twins, 81, 293
 variation in hair pigment concentration, 306
 DODSON, MARIE W., 252
 Dutch, 389
 dynamics, of race mixture, 1
 of sickle cell disease, 154
 elimination of lethals, 148
 environment, 82, 293
 effect on variance, 82
 effect on hair pigment concentration, 317
 environmental variation, method for study of, 76
 Eskimos, 252
 erythroblastosis fetalis, 350
 rare human agglutinin as cause of, 350
 estimation of mutation rate, 73, 373
 ethnic relationship, finger prints and, 389
 exomphalos, 168
 finger prints, 389
 fingertip pattern, 389
 ABO blood group and, 398

- ethnic distribution, 393
- geographic distribution, 395, 396, 397
- fitness, reproductive, 73, 373
- foot anomalies, 356
- GARTLER, STANLEY M., 148
- GARDNER, ELDON J., 139
- genetics of, 35, 46, 61, 70, 118, 257, 356
 - clinodactyly, 257
 - hand and foot anomalies, 356
 - Heberdon's nodes, 46
 - hemoglobin synthesis, 35
 - rheumatic fever, 61
 - rheumatoid arthritis, 118
 - syndactyly, 70
- genotype-phenotype systems, 194
- geographic differences in finger print indices, 397
- GLASS, BENTLEY, 1
- GOMORI, GEORGE, 400
- hair pigment concentration, 293
 - genetic determination of, 309
 - effect of environment on, 317
 - variation in, 306
- hand anomalies, 356
- HANNA, BERTRAM L., 293, 377
- harelip, 176
- HASKELL, GORDON, 236
- HAUSER, HARRY, 46
- Heberdon's nodes, 46
- hemoglobin synthesis, 34
 - control of, 34
 - abnormal, 38
 - rate of, 39
- hereditary variation, 76, 317
 - methods for study of, 76
 - in hair pigment concentration, 317
- heredity and environment, 76, 293
 - determination of effect on hair pigment concentration, 293
 - estimation of relative effects of, 76
- heredity in relation to, resistance to tuberculosis, 322
- HERSH, A. H., 46, 118, 257
- histochemistry, 400
- HORVITZ, D. G., 107
- idiopathic convulsive disorder, 94
- inbreeding coefficient, 107
- inheritance of, 35, 46, 61, 70, 118, 257, 322, 356
 - clinodactyly, 257
 - hand and foot anomalies, 356
 - Heberdon's nodes, 46
 - hemoglobin synthesis, 35
 - resistance to tuberculosis, 322
 - rheumatic fever, 61
 - rheumatoid arthritis, 118
 - syndactyly, 70
- Indians, 252, 377
 - Alaska, 252
 - Arizona, 377
- individual differences, 402
- ITANO, HARVEY A., 34
- JOHNSTON, OLA, 356
- joint enlargement, 46
- KEMP, TAGE, 280
- keratin solutions, optical properties of, 302
 - albino hair, pigmented hair, 302
 - nail, 303
- KROOTH, ROBERT S., 373
- lesions, 139
- lethals, 148
 - elimination of, 148
 - recessive, 148
- LI, C. C., 1, 107, 269
- linkage, partial sex, 94
- lobster claw anomalies, 356
- MACKLIN, MADGE T., 194
- MACMAHON, BRIAN, 168, 176
- maternal age, 176
- maximum likelihood, 112
- McKEON, THOMAS, 168, 176
- membership list (September 1953), 410
- MN blood types, 7, 254, 382
 - Alaskan Indian, 254
 - Eskimo, 254
 - Negro, 7
 - Pima Indian, 382
- monozygous twins, 76, 295, 324
 - determination of zygosity, 296, 324
 - in psychological genetics, 76
 - variation in hair pigment concentration of, 306
- MONTAGUE, M. F. ASHLEY, 70

- multiple recessiveness, 270
 multiple variance method, 76, 304
 in psychological genetics, 76
 in twin study, 304
 mutation rate, 73, 149, 151, 373
 achondroplasia, 73, 373
 chondrodystrophy, 73, 373
 equilibrium conditions for, 149, 151
- NEEL, JAMES V., 154
- Negro, 1, 5, 6, 7, 8, 154, 310, 366
 ABO blood group in, 6
 hair pigment concentration in, 310
 MN blood types in, 7
 polydactyly in, 366
 PTC taste in, 8
 Rh blood types in, 5
 sickle cell in, 154
- osteoarthritis, 46
 osteomatosi, 139
- PAULS, FRANK P., 252
 pedigree of, 48, 71, 94, 140, 250, 257, 361-369
 brachydactyly, 368, 369
 clinodactyly, 257
 Heberdon's nodes, 48
 idiopathic convulsive disorder, 94
 osteomas and polyposis, 140
 polydactyly, 365, 367, 368
 psycho-neurosis, 240
 split hands and feet, 361, 363
 syndactyly, 71, 361, 363
- PELPHS, V. RAE, 100, 186, 284, 405
 phenotype systems, 193
 phenylthiocarbamide, taste, 8
- PLANANSKY, KAREL, 322
 polyposis, 139
- POPHAM, ROBERT E., 73
 population admixture, 377
 population dynamics, 154
 population history, 377
 population model, 107
 populations, distribution of finger print indices in, 393
 program of annual meeting, preliminary, 283
 PTC, taste of, 8
 psychological genetics, 76
 psycho-neurosis, 236
- racial admixture, 377
 racial difference, 310, 319, 393
 finger print indices, 393
 hair color, environmental variation in, 319
 hair pigment concentration, 310
 racial intermixture, 1
 racial distribution of, 6, 7, 8, 254, 389
 ABO blood group, 6, 254
 finger prints, 393
 MN blood type, 7, 254
 PTC taste, 8
 Rh blood type, 7, 254
 recessive lethals, elimination of, 148
 recessive inheritance, 269
- RECORD, R. G., 168
- REED, SHELDON C., 282
 regular phenotype systems, 195
 research design, 76
 resistance to tuberculosis, 322
- Rh blood types, 5, 226, 254, 386
 distribution in
 Alaska Indians, 254
 Alaska whites, 254
 Eskimos, 254
 Negroes, 5
 Pima Indians, 386
 phenotype system, 266
 rheumatic fever, genetic factors in, 61
 rheumatoid arthritis, 118
- RICHARDS, RALPH C., 139
- RIFE, D. C., 389
- SCHEER, BRADLEY T., 280
- SCHWARTZ, MICHAEL, 185
 seasonal variation in birth ratio, 21
- SECKEL, H. P. G., 184
 selection against recessive lethals, 148
 sex linkage, partial, 94
 sex ratio, seasonal variation in birth, 21
 sex difference in environmental effects on hair pigmentation, 293
- sickle cell, 43
- SLATIS, HERMAN M., 21
 soft tumors, 139
- SOLOMON, WALTER M., 118
- STECHER, ROBERT M., 46, 118, 257
- STRANDSKOV, HERLUF H., 99, 185, 280, 377
 subcutaneous lesions, 139
- SWIFT, HEWSON, 400
 syndactyly, 70

- thalassemia, 43
 - trichosiderin concentration, variation in
 - twins, 314
 - tuberculosis, pulmonary, variable resistance to, 322
 - tumors, soft, 139
 - twin study, research design for, 76
 - twins, 293, 322
 - hair pigment concentration in, 293
 - trichosiderin concentration in, 314
 - variable resistance to tuberculosis in, 322
 - zygosity determination of, 296, 324
- UCHIDA, IRENE A., 61
- WIENER, ALEXANDER S., 350
- WILLIAMS, ROGER J., 402
- WOLPAW, RALPH, 118
